SUMMARY

Full Stack Developer with 5+ years of commercial experience building and modernising business-critical applications. Skilled in reverse-engineering legacy financial logic and undocumented databases, integrating disconnected systems, implementing application security, and deploying to Azure. Built and migrated platforms serving 5,000+ customers while maintaining continuity of business operations.

PROFESSIONAL EXPERIENCE

Inside Edge Novated Leasing | South Melbourne, VIC December 2021 – April 2026
Full Stack Developer

- Led end-to-end delivery of a customer portal application (TypeScript, React, Express.js, SQL), from design and development to deployment, including seamless migration of 5,000+ users from legacy system
- Developed authentication and RBAC systems, supporting secure user access and session-based tracking
- Built and integrated RESTful APIs, third-party services, and webhooks across internal and external systems
- Managed CI/CD pipelines across 3 company systems, including automated build, test, and deployment processes for software releases
- Supported production reliability and security by remediating vulnerabilities, containerising applications, and resolving critical incidents including ransomware recovery
- Acted as the first point of contact for onsite IT issues when dedicated IT was unavailable, troubleshooting staff computers, software, local network/Wi-Fi connectivity and direct onsite server maintenance
- Collaborated with cross-functional teams to develop internal tooling and automation solutions to improve workflows, reduce manual processes, and improve operational efficiency

Solar Service Group | Box Hill, VIC
Front End Developer November 2020 – November 2021

- Built and maintained analytical dashboards (React, Typescript), data visualisations, and automated reporting tools to support sales performance tracking, team engagement, and data-driven decision-making
- Designed S&OP processes and automated reporting systems (Python, Pipedrive, Zapier), improving business insights and contributing to a 27% increase in monthly battery installations
- Increased transparency by scaling dashboard access and integrating push-notifications to distributed employee devices, enabling every sales team member to view real-time performance metrics

Campaign Strategist July 2018 – November 2020

- Led sales campaign planning and execution, overseeing 5 teams of 10 to drive revenue growth, improve customer engagement, and achieve targets
- Analysed campaign performance, identified opportunities for improvement, and collaborated with cross-functional teams to optimise messaging, targeting, and conversion outcomes

Team Leader March 2017 - June 2018

- Led sales team of 11 to achieve targets by coaching staff, supervising daily operations, and implementing strategies to improve performance

iSelect | Cheltenham, VIC January 2014 – December 2016
Health Insurance Sales Consultant
